NATIONAL WHIG NOMINATIONS.

FOR PRESIDENT. GENERAL WINFIELD SCOTT, OF NEW JEBSEY.

OF NORTH CAROLINA.

FOR VICE PRESIDENT, WILLIAM A. GRAHAM,

RESOLVED, That the Whig people of Washington, conscious that the ground they trend is worthy of the consecrated name it bears only so long as it is peopled by men who hold to the Union of the States as the source and fountain of the blessings of public order and private right—of liberty and law—of happiness at home, and honor throughout the world; and believing that in the principles and policy of the Whig party, and in the tried patriotism of its glorious Jenders, is the best safeguard of the Union from domestic discord or foreign quarrel, no note frame, to those principles, and will rally with ardent and united hearts around the flag of the Union, to whomsover of these leaders it may be confided in the approaching contest.—Proceedings of a Whig meeting prior to the nomination.

"I HAVE SERVED THE UNION FOR FORTY-ODD YEARS, AND FREL MYSELF A CITIZEN OF EVERY PART OF IT; AND WHATEVER OF LIFE AND STRENGTH I MAY HAVE SHALL BE DEVOTED TO ITS PRESERVATION."-Gen. Winfield Scott's Castle Garden Speech.

## The Pueblo Indians' Visit to the Navy-

On Saturday morning the Pueblo Indians, in charge of their gentlemanly conductor, Captain Love, paid a visit to the Navy-yard. They were introduced by Capt. Maddox to Commodore Ballard, who welcomed them in a few pleasant words, and then requested Captains Maddox and Powell to show them the curiosities of the establishment, which, as he smilingly told them, are to punish our enemies and protect our friends-among the latter of whom he considered his visiters (the Pueblos) to be numbered. Several rounds of cannon, of large and small

calibre, were then fired, for their entertainment. at the condemned storeship Water Witch, lying in the river. They evinced great admiration at the rapidity with which the guns were fired, and the swift course of the balls as they bounded over the water. A large Paixhan gun, of twelveinch bore, considerably larger than the "peacemaker," was shown them; when one of them jocularly observed that, if he were put inside of it, and it fired off, it would take him to Santa Fe in a minute!

A vessel now on the stocks, designed to carry naval stores between the Navy-yard and Norfolk, was shown them. The eldest of the party, a sage of sixty-four years, in reply to a question as to what he thought of it, said: "I can't think at all about it; the white men know too much!"

The various operations of the vard-such as steam-sawing, blacksmithing in all its varieties. punching boiler iron, the manufacture of cannons, bullets, percussion-caps, and ball-cartridges, piledriving for the foundation of new buildings, &c., were exhibited to them, and specimens of the various small articles given them. They showed the highest delight and admiration at everything they saw; though, like all their race, endeavoring apparently to hide their feelings under a stoical expression of countenance, which involuntarily gave way to looks of undisguised wonder and pleasure.

After making the circuit of the yard, and seeing everything of interest, they were invited by Captain Maddox to his apartments, where they were presented to the Captain's lady, and hospitably entertained; after which they took leave, their faces beaming with satisfaction at all they had seen and heard, to say nothing of the good cheer with which they had been entertained.

No one can look upon these gentle, intelligent relics of the aborigines of our country without warm feelings of interest. Our thoughts revert to the time when our whole land, now teeming with the stapendous works of art, and rich in all that can contribute to the comfort of civilized man, was possessed alone by the beasts of the forest and the wild race of these simple, unoffending inhabitants of New Mexico, who have now journeyed from their sunny fields to visit their "Great Father" and behold the wondrous works of their pale-faced brothers.

When the Spanish conqueror Cortez crushed to the earth the old Aztecs, he little thought that their descendants would one day form part of a giant nation of whites, and far surpass himself and his haughty followers in religion and the lights of knowledge.

We may speculate as we please on the vast and insurmountable difference between the white and other races: but the fact is incontestable that these poor, despised Pueblos are far superior to the Mexican Spaniards in all that is pleasing and useful in the character of man. They are as well educated, more docile and tractable, and yet more warlike when occasion calls them forth: and their well-cultivated fields show how much they surpass them in industrial pursuits.

Of the sixty thousand inhabitants of New Mexico, about fifteen thousand-one-fourth-are Pueblos; and, as this territory must, at no very distant day, together with its neighbor. Utah. come into our galaxy of States, we think that more attention should be paid to the instruction of the people who are hereafter to send legislators to the halls of Congress. Besides, as "manifest destiny" is pointing with weird finger to the approaching annexation of Mexico proper, our peaceful missionaries may as well go over the

# Is it True!

The following is said to be quoted from the paper of Parson Brownlow, who prints the only anti-Scott paper pretending to be Whig in Tennessee, and who boasts that he and his clan will ter in a nutshell. give the State to Pierce by 10,000 majority.

"We have been kindly and respectfully notified this week, by Mr. Webster, Secretary of State, that our paper is selected for publishing the Orders, Resolutions, and Laws, passed during the first session of the 32d Congress; and also all public treaties entered into and ratified by the United States."

A report comes from Paris, that a son of the ex-King Jerome will be sent to the United States in the capacity of Ambassador of France.

Congress To-day. SENATE.—After the morning business, a message was received from the House, announcing the death of the Hon. ROBERT RANTOUL, jr.

Mr. Sumnen delivered an eloquent eulogium on the occasion; when the resolutions from the House were agreed to, and the Senate adjourned.

House of Representatives .- This morning after the journal was read,

Mr. Mann arose, and in eloquent terms anounced the death of his colleague, the Hon. ROBERT RANTOUL, jr., which took place on Saturday night. The disease was erysipelas, and terminated that gentleman's existence in the ourse of four or five days.

Messrs. Fowler, McLanahan, Mace, and CLARK made a few remarks upon the same subect; and, after the adoption of the resolutions of respect usual on such occasions,

The House adjourned.

Death of the Hon. Robert Rantoul, Jr. It is with feelings of profound sorrow and regret that we record the death of the Hon. Ros-ERT RANTOUL, jr., an able, accomplished, and valued Representative from Massachusetts.

Mr. Rantoul, the Intelligencer states, was in his sent in the House on Tuesday last, the 3d instant. At that time he appeared to be in usual health, with the exception of what he considered to be a small bile upon his forehead. On Wednesday morning the little sore was surrounded by erysipelatous inflamation, in consequence of which he was prevailed upon to remain in his room and procure medical advice. Thursday the disease seemed to be entirely arrested, and on Friday morning he felt very much better, and spoke confidently of returning in a day or two to his luties in the House. On Friday evening he became much worse : the ervsipelas spread over the entire face, and his brain was evidently affected. On Saturday evening the left side became paralytic, after which he sank rapidly, and expired at about half-past 10 o'clock p. m. Mr. Rantoul was forty-seven years of age.

The remains of the deceased were taken to Beverly, (Mass.,) Mr. Rantoul's late residence, on the 4 o'clock railroad train of yesterday, the even the apprehension of such a calamity as is Speaker of the House having designated Mr. Duncan and Mr. Goodrich, of Massachusetts, Mr. Cleveland, of Connecticut, and Mr. Eastman, of Wisconsin, to constitute the escort.

#### North Carolina.

We have declared our belief that this State will vote for Scott and Graham in the approaching contest; and we entertain not the shadow of a doubt upon the subject. We regret that any cause could exist to prevent the success of the Whig candidates in the recent election, but it is John Van Buren, Dix, Sumner, Chase, Preston well known that local divisions have produced this effect.

s a gentleman of great popularity, having risen upon the billow that proved adverse to his opponents a couple of years ago. In speaking of that election, a few days since, the Union, of this city, said it was "A RESULT MAINLY BROUGHT ABOUT BY LOCAL ISSUES, AND THE WANT OF POP-ULABITY OF GOV. MANLY, THE WHIG CANDIDATE. The same state of things has just now produced the same result. We regret much that there should be even a temporary abatement of the influence of the Whigs in the legislation and administration of that State; but if they have maintained unpopular measures, they must submit to the natural consequences. The responsibility, however, does not rest upon the Whig national candidates before the country, nor will they share in the fate of the local candidates now any more than in all former times.

# Bolters.

The Democratic papers are boasting loudly of their converts from the Whig ranks, a list of which is before us. It embraces Charles F. Mayer and J. Spear Nichols, of Baltimore. If rightly, these gentlemen have been very slow in getting over the fence-much too slow for the wel-Whig flag, defeated Latrobe, who ran for the vember. As an honest out-and-out Democrat, if harm. Nichols, it is said, has not gone over at Carusi's. at all, but was simply taken with a Webster spasm on the nomination of General Scott. But n' im-

"Few Die and None Resign." This saying with regard to public officers, at tributed to Mr. Jefferson, is most strikingly contradicted by several resignations in the Patent Office of places which gave the incumbents salaries of \$2,500 per annum. No less than three of the Examiners have recently vacated their desks, and two of them design, we understand, to take up the business of patent agents. This, perhaps, may convince some of those public economists who think that Washington clerks are overpaid for their services, that even the best paid are satisfied they can make more money by working for themselves than they can by toiling

Roman Catholic Priests and Sisters. A letter from Washington, in the Baltimore Sun of to-day, says: Rev. Father Flanigan will remove to Baltimore, probably to assume the responsible duties of a college-the vacancy thus created in the senior pastorship of Trinity Church here, to be filled by the Rev. Father John Early, who will be assisted by the Rev. Father Aiken, formerly of Alexandria. The Rev. Fathers Maguire and Blox will be transferred to St. Joseph's Church, Philadelphia.

Mother Cecelia Brooks, Sisters Theodosia and Boromes, so universally beloved, and others, have left us to reside at "Mount de Sales," that beautiful institution near Baltimore.

# In for the Spoils.

The New York Herald, one of the most zealous Pierce organs in the country, recognised and reputed by all of that party, thus discourseth: BENJAMIN F. BUTLER OUT AT LAST .- The Hon B. F. Butler has at length replied to the scorching Freesoil letter of Senator Chase, of Ohio, which we lately published. Mr. Chase demands, on the ground of consistency, that Mr. Butler borders, and scatter a little of their surplus re-publicanism among the benighted natives.

On the ground and the Barnburners should come over to the Pittsburg platform and ticket. Mr. Butler's reply is an ingenious rigmarole, reconciling his Buffalo principles with the support of General Blest with "the stated preaching of the Pierce. gospel," MR. BUTLER AND THE WHOLE VAN BUREN PARTY OF NEW YORK ARE NOW IN FOR THE SPOILS. And that's the whole mat

The Southern Press.

In this morning's issue, the discontinuance of this paper is announced. "The main cause of this result," the senior editor says, "is the delinquency of its subscribers. There are now over forty thousand dollars due the paper for subscriptions, and this is only the beginning of its third year. And if this sum were now all paid in hand, it would not indemnify the proprietor and senior editor for his pecuniary advances, liabilities, and services in the undertaking. But by the stoppage, the receipts and liabilities for the current year are stopped. It was not, however, we believe, ever seriously expected that subscriptions alone would sustain such a paper. No paper has been attempted here on such a basis.

In the principles advocated by the Press, we have no sympathy. Of the success of the editors in any position in which success is possible, we have great hope. They are gentlemen of great worth and excellent abilities. We do not grieve for the downfall of their paper, but shall exult in the fortunes that are yet in store for them.

Here is another specimen of the style in which the war is carried on against Gen. Scott by some of the Democratic papers:

"Had I the power, I would erect a gallows upon wery wharf in the city of New York, and hang ery d—d Irishman as fast as they come on shore.
"Mr. Matthew L. Davis made the above declaration in Washington, on hearing of a Democratic victory in New York: He is a supporter of Scott.

Now, this will go the rounds, and, being once printed in a Democratic paper, will never be retracted or contradicted therein, though the fact is that Matthew L. Davis has been lying in his grave in Trinity Church-yard, New York, these two years Norfolk Herald.

#### Our Frontiers.

The Baltimore American alludes to the re ported massacre of Captain Marcy and his men. and savs :

"The Secretary of War, in his estimates of the forces that would be necessary to meet the requirements of the service, called for some two or three additional regiments; and if this requisition had been complied with by Congress, the country would not have been compelled to suffer

"If a Democratic Congress has refused to make provision for the defence of the Western and Southwestern frontiers, the delinquency should not be charged upon the Executive

#### Seward & Co.

People are curious to know who constitute the Is Gov. Joe, of Virginia, one of the con-He is a higher-law man. Is Martin Van Buren ! He was the candidate of the higher-law party in 1848. Are Hallett, Bryant, Cleaveland, King, Townsend? They are all eminent and active Freesoilers. If they constitute the "Co.," Governor Reid, who is now probably re-elected, they are much more numerous and influential than the solitary principal-and they all go for Pierce.-Louisiana State Republican.

## The Wrong Jones.

We still see it going the rounds that Senator 'Jimmie Jones," of Tennessee, has had a fight with Mr. Van Wyck in this city. We would again correct the error. Hon G. W. Jones, of the House, is the guilty Jones, and his party must not accredit anybody else with his sins.

#### A Voice from Abroad!

The New Hampshire Patriot lately published a London letter from Theophilus Fiske, in which that gentleman exults in the fact that Gen. Pierce is commended by the London Times. Mr. Fiske is known to many of our readers. Since the fall of John Tyler he has been devoting his attention to psychology, and all that.

#### HEAR YE! HEAR YE! HEAR YE! READ AND BE WISE!

THE celebrated German and Indian Physicians—Doctors
Brothers & Gray—have established a permanent Medical Office in this city, after having travelled the world over
in search of knowledge; and, having spent seven years
among the Indians for the purpose of getting a thorough
knowledge of botany, they flatter themselves qualified to
alleviate and cure all complaints to which the human family are subject. We flatter curselves that, without asking
a question, we will tell all who favor us with a call their
complaints and symptoms and constant an every and ily are subject. We flatter ourselves that, without asking a question, we will tell all who favor us with a call their complaints and symptoms, and guaranty an easy and speedy cure. A decided advantage we have over other Medical men is in the manner we determine the nature and location of the disease, which is by the urine. We require at least two ounces of the first in the morning. The many facilities afforded us by hospital and private practice, in this and foreign countries, warrant us in assuring those who are suffering from private diseases that our treatment is attended with unusually favorable results. Therefore, let no false modesty deter you from making your case known to one who will befriend you. All diseases of the genital organs, whether of recent or long standing, such as gonorrhose, syphilis, gleet, strictures, uritary affections, ulcers upon the body, or in the throat and nose, we treat with that success which few Physicians in the world are capable of. Those who apply in the early stages of the disease are surprised at the little inconvenience and rapidity attending their cure, and those who have suffered from quacks and their mineral poisons will be warranted a permanent cure without mercury.
